### ULMA FORGED SOLUTIONS

ULMA has been a leading force worldwide in forged steel flanges and high-spec forged components since 1962, supporting demanding industries such as Oil and Gas, Energy and Nuclear. Extensive experience in manufacturing complex forged parts offers high flexibility in materials, geometries and production volumes.

### AMPO POYAM VALVES

Your partner for severe services. A worldwide leader in highly engineered valves and Integrated Smart Solutions for the most severe services across multiple sectors, with maximum efficiency and minimum maintenance costs. We offer the widest highly engineered valve range, as well as Integrated smart solutions and services.

manufacturing the valve you need
